While home automation may sound complex its purpose is to simplify your life. At BriteBox, we can provide innovation technology to keep your house running smoothly when you are home – AND when you're not!

- Access your entire collection of music and movies in one touch
- Control the temperature inside when weather changes outside from anywhere
- Turn the lights on before you walk through the front door
- See that the kids made it home safely – even lock the doors remotely
- Keep your yard looking great with set lights and watering

You can have all that and more now with BriteBox home automation services. Whether you want to make a small update in one room or fully integrate your whole home, we are passionate about connected living and all the possibilities it brings.
